Scope 3 Carbon Footprinting Course - Pricing Options

This is an international standard course that teaches you all of the details you will need to do a complete carbon footprint, along with a carbon reduction plan and fully referenced footprint report. No prior experience is necessary although applicants will be expected to be numerate.

Pricing (Video Courses)

The full video course is divided up into two modules each with their own 1-1.5 hr video presentation, slides and presentations notes. Your own personal tutor is also available via email and chat to answer any questions you might have during your studies.

This video course is great for going at your own pace, fully grasping a topic before moving on, as well as always having access to the videos and course materials that you can refer back to at a later date.

A rigorous 'take at home' 1hr examination is available for those who wish to gain formal certification.

Prices:

- Without certification: **£30**
- With certification exam: **£45**

To order visit <https://www.netzero-southwales.co.uk/carbon-footprinting-course/> or email admin@netzero-southwales.co.uk.

Pricing (Live Webinars)

These live webinars are suited to organisations who want to train up a group of people to do in-house Scope 3 carbon footprints to a fully professional standard. *The webinars are run by a professional with over 15 years experience in carbon footprinting as well as 7 years teaching experience in schools.*

All participants will also get a recording of the presentation along with slides and presentation notes for revision purposes.

Prices are as follows:

- Webinar 1 (**£130**): this combines Modules 3 & 4 and is of approximately 2.5hrs duration with up to 30 mins of additional question time on top. It can be split into two webinars if required.

- Additional webinar time is available if needed at a cost of **£50 per hour**, which includes time to prepare the webinar.

Note: the certification process is available for webinars at an extra price of £15 per person. This requires each participant to complete and return a 1hr exam done in their own time.

To order visit <https://www.netzero-southwales.co.uk/carbon-footprinting-course/> or email admin@netzero-southwales.co.uk.

Pricing (in person workshops)

These workshops take place at a venue of your choosing and do not include venue hire or room booking prices. The prices also do not include travel costs for the course facilitator nor any potential overnight stays if the travel distance requires it.

The certification process is available for workshops at an extra price of **£15 per person**. This requires each participant to complete and return an exam done in their own time.

All participants will also get a recording of the presentation along with presentation notes for revision purposes.

Price:

- **£180:** this combines modules 3 and 4 and is of approximately 2.5hrs duration with up to 30 mins of question time.

To order please email admin@netzero-southwales.co.uk.
